Just Watch, The Press Is Going To Put Some Negative Spin On This!

## VEEP'S KEEPING IT REAL WITH HIS PEEPS

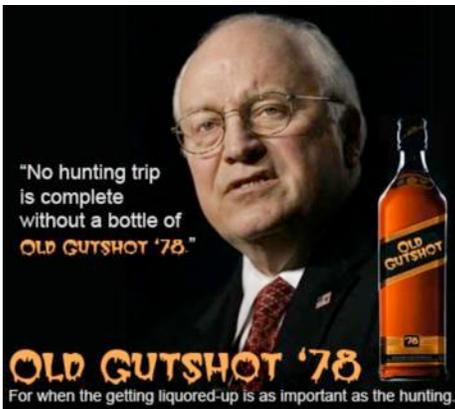

©Pressbox Productions 2006

### The Notorious V. P.

#### VP GETTING JIGGY WITH IT

Seen by most administration observers as a misguided effort to shore up his historically low approval ratings, Vice President Dick Cheney, shown above, proudly displays some of his bling. Cheney spokesman 2-Pac Weinberg disclosed the new initiative to appeal to the hip hop generation. Said Weinberg, "Mr. Cheney is as hip & cool as anyone, he even has the entire Barry Manilow Greatest Hits Album on 8 track in his Studebaker." See, CLUELESS pg, 24k

#### HE JUST WASN'T THERE

Vice President Dick Cheney's Press Secretary Buck Schott downplayed recent reports that placed the VP along with several members of the RNC, Trilateral Commission & the entire Wu-Tang Clan at the scene of a violent shoot-out at the west coast studios of Gangsta Records in South Central LA.

Said Schott, "Look home boy, I'm just representin, it didn't go down like that. My boy was cold lounging in the crib all night, he don't roll like that no more G-dawg, now give him some props."

When pressed on the issue & reminded of the surveillance camera picture of Cheney sporting two semi automatic hand guns & several gold chains, Schott appeared to retreat from his earlier stance. Said Schott, "OK, we ain't denying homeboy's sporting a deuce of Teflon 9's that eat vest, but my man's just not into the hardcore beat down action. And, we definitely ain't copping to busting a cap in Suge Knight's ass." See, PIMP MY GUN pg, .38

## WHITE HOUSE IN POSSIBLE VIOLATION OF OSHA WORKPLACE SAFETY RULES

### NEW PERSONAL BEST

During a hastily called press conference in the new Harry Whittington indoor firing range, White House Spokesperson Ben Daid announced today that they had achieved the longest streak of gunshot wound free days of the current

administration. This eclipses the previous record of two consecutive workdays without a gunshot wound achieved in spring 2003. Two prior stretches of four days in 2004 & a six day stretch in 2005 are not considered official because VP Cheney was out of the country at the time.

However, doubt was quickly cast on the accuracy of the claim when it was later revealed that a White House cook had received minor flesh wounds when Vice President Cheney accidentally discharged 17 rounds from a S&W .357 Magnum. This latest incident occurred while Cheney was

©Pressbox Productions 2006

presenting the gun as a gift to a group of 17 French Diplomats. Citing inaccurate pre incident intelligence, VP Cheney appeared to sidestep direct responsibility for the incident & claimed he had been briefed by members of his staff as well as the NSA & CIA that the firearm was not loaded.

Still later, a press release faxed to news agencies revealed that the injury was slightly more serious than originally announced. Donations in memory of the cook may be sent to the White House Kitchen Manager at (202) EAT-LEAD.

## NEWLY DISCOVERED PHOTO SHEDS NEW LIGHT ON RECENT CHENEY HUNTING ACCIDENT

### IT'S IN THE GENES

Vice President Dick Cheney's recent hunting accident in Texas is apparently not the first firearm incident in the Cheney family history. This recently discovered security camera photo from Ye Olde Mercantile of Convenience, located directly across the street from Ford's Theater in Washington, DC, captured this Degerotype image just moments before the fateful event. The current VP's Great Great Grand Nephew, John Wilkes Booth-Cheney is seen here just before accidentally delivering the fatal shot.

©Pressbox Productions 1865

At the left of the frame, Lincoln's Vice President Andrew Johnson can be seen gesturing to Booth-Cheney that he may now present the commemorative rifle to President & Mrs. Lincoln. Historians differ on what happened next but many now believe that as Booth-Cheney approached the first couple, he caught his foot in the heavy velvet draperies lining the Presidential Box, fell onto the floor & thereby changed the course of American history.

## AND NOW YOU KNOW THE REST OF THE STORY

©Pressbox Productions 1963

### WILL WE EVER KNOW THE WHOLE TRUTH?

More uncertainty has been added to the already rampant nut-job conspiracy theories surrounding the events of 11/22/63. This recently declassified Dallas Police Department picture appears to cast serious doubt on whether Jack Ruby actually could have shot Lee Harvey Oswald-Cheney in that underground police garage. As shown in this Cheney family archive photo, Oswald-Cheney was heavily armed himself & would have surely been able to fend off the middle aged Ruby who was armed only with a small caliber pistol & a rolled up copy of The Police Gazette.

See, NEED TO KNOW pg, 1122

©Pressbox Productions 1804

### GO BIG OR STAY HOME

In yet another revelation of Cheney family involvement in historical gunshot incidents, this recently discovered photo reveals new details of this famous duel. Poor Alexander Hamilton obviously never had a chance, armed only with his flintlock pistol while his adversary, Aaron Burr-Cheney, was apparently armed to the teeth with an early model automatic weapon.
